Introduction

Florida law requires Scholarship Funding Organizations (SFOs) like Step Up For Students to prepare purchasing handbooks that describe authorized uses of scholarship program funds. SFOs must update the handbooks at least annually, including a list of prohibited items and services and a list of items and services that require preauthorization or additional documentation.

These guidelines are intended to be general in nature and to assist parents and guardians to remain in compliance when making scholarship purchases. They are not intended to provide detailed instructions or to prescribe any particular educational programs. Because each SFO is an independent non-profit organization, they each have their own policies and procedures, so it is important to refer to your SFO's [Parent & Guardian Handbook](#) and materials for detailed information about their scholarship administration processes.

Purchasing Policies

Under Florida law, Florida Tax Credit (FTC) Scholarship funds, including Personalized Education Program (PEP) funds, must be used to meet the educational needs of an eligible student. Using a student's scholarship funds for other purposes may violate Florida law and may be a crime. Parents and guardians should contact their SFO if they have questions about the eligibility of a purchase using scholarship funds prior to engaging in this transaction.

SFOs may require parents and guardians to use an online platform for purchases as long as it does not limit their choice of curriculum or academic programs. SFOs may also reimburse parents and guardians for their out-of-pocket purchases of eligible products or services that meet their student's educational needs. Parents and guardians should verify with their SFO that a purchase is eligible for reimbursement before paying out-of-pocket for the item or service. If a parent or guardian purchases a product identical to one offered by an SFO's online platform for a lower price, the SFO is required by law to reimburse the parent or guardian for the cost of the purchase.

The Florida Department of Education (FLDOE) reserves the right to terminate a PEP scholarship for violations of the scholarship guidelines, policies, rules, or laws. Examples of violations that may result in termination of scholarship participation include:

- Enrolling in a public district school, charter school, or public online schools (including summer public school), without paying the public school using scholarship funds
- Misspending funds or committing fraud.
- Accepting any other scholarship or tax credit scholarship while participating in the PEP scholarship program.

General Purchasing Provisions

Age-appropriate: Given the unique and varied needs of students participating in this scholarship program, age-appropriate evaluations are primarily focused on minimum age requirements for safety purposes.

Cash Purchases: Cash payments to private sellers are not eligible for reimbursement.

Educational Benefit: Products, practices, or services that support and advance student learning. Some items or services may require additional information to demonstrate the educational benefit of the item or service to the educational needs of the student.

Monetary Benefit, Refunds, & Rebates: Parents and guardians may not receive any payment, refund, or rebate of scholarship funds from a vendor or provider of any services. If a parent received a payment, refunds, or rebate from a provider, those funds must be returned to the student's scholarship account.

Out-of-State Activities: Out-of-state activities that meet general expense criteria are eligible with Pre-Authorization approval.

Out-of-State Service Providers: With the exception of credentialed providers whose services may be delivered virtually (e.g., tutors, Choice Navigators), services must be delivered in the State of Florida.

Parent or Guardian: Either or both parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent. Parents and guardians must be Florida residents for their student to receive a PEP scholarship.

Pre-Authorizations: Many items and services have been pre-approved as authorized uses of scholarship funds. However, some items or services require a parent to submit a pre-authorization request prior to making the purchase. See [Appendix B](#) for a full list.

Items or services not listed as eligible in this Purchasing Guide require a pre-authorization approval before purchasing the item or service. Step Up For Students will not consider or approve pre-authorization requests for items that are prohibited.

A pre-authorization request requires:

- Completion of the pre-authorization request form and the completion of the [Educational Benefit Form](#) explaining how the purchase will benefit the student's education. The pre-authorization request should be specific to the student and contain as much detail about the specific item or service being requested, including the approximate cost of the item or service.
- Completion of the reimbursement or direct pay request if the pre-authorization request is approved. The items or services submitted for reimbursement should correspond to the pre-authorization request.

A pre-authorization request is not a confirmation of the provider's eligibility or the funding available for the reimbursement.

Approvals of pre-authorizations are decided on a case-by-case basis relevant to the needs of the individual student. An approved pre-authorization is valid for purchases in the school year in which it was approved.

Pre-authorizations are submitted through scholarship portal once a student's account has been funded. The pre-authorization request will be reviewed in the order it was received, and a notification of the outcome will be sent via email. If the pre-authorization is approved, once you have purchased the item, submit a reimbursement request in the parent/guardian portal.

Pre-authorizations are accepted until April 30, 2025. This will ensure that pre-authorizations have time to be approved and parents have time to make the purchase and submit a reimbursement request prior to the end of the school year on June 30, 2025.

Product & Service Safety: For safety reasons, Step Up For Students may review manufacturer's recommended minimum age use when determining if an education product is age appropriate. Step Up For Students reserves the right to deny an item or require clarification for items that are not age-appropriate or promote violence, criminal activity, or illegal behavior.

Prorating Payments For Multi-User Items: Other family members often use products purchased using scholarship funds. Funding for these multi-user items is prorated to only cover the scholarship student's cost. If a single-user subscription is available, the multi-user item purchase is prohibited.

Purchase Location: Purchases made online through the direct buying platform using scholarship funds must be shipped to the Florida residential address associated with the student's scholarship account. This requirement does not apply to PEP scholarship students who are dependent children of active-duty members of the United States Armed Forces who have received permanent change of station orders to this state or, at the time of renewal, whose home of record or state of legal residence is Florida.

The reimbursement request should be submitted with Invoice Date of November 15, 2024.

Not all private schools are eligible to participate or receive PEP scholarship funds. Eligible schools must meet state eligibility criteria and elect to participate in the PEP scholarship program with the Florida Department of Education (FLDOE). A list of schools eligible to serve scholarship students can be found in the [Florida Private Schools Directory](#). Select your county; then select PEP Hybrid Schools.

Tuition & Fees For Part-Time Enrollment At An Eligible PEP Hybrid School

Tuition & Fees For Home Education Instructional Programs

A "Personalized Education Program" means the sequentially progressive instruction of a student directed by his or her parent in order to satisfy the attendance requirements of ss. [1003.01\(13\)](#), and [1003.21\(1\)](#), F.S. while registered with an eligible nonprofit scholarship funding organization pursuant to s. 1002.395, F.S.

"Parent" is either or both parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent (s. [1000.21\(5\), F.S.](#)).

Note: For purposes of the scholarship program, a home education instructional program as an authorized use of funds is different than a home education program as defined in s. 1002.01(1), F.S.

The following considerations apply when determining whether a program is an eligible home education instructional program tuition and fee expense.

Eligible programs must:

- Be a program selected by the parent or guardian as a part of their parent-directed education choice for their student's instruction.

More information about FLDOE approved pre-apprenticeship programs can be found [here](#).

- Private tutoring may be provided for up to 25 students in any commercial building with a valid certificate of occupancy, library, community service, museum, performing arts, theatre, cinema, or church facility; in any facility or on any land owned by a Florida College System institution or university; in any similar public institution facility; and in any facility recently used to house a school or child care facility licensed under Florida Statute 402.305 within the preexisting zoning and land use designations of the facility without obtaining a special exception, rezoning, or a land use change so long as the provision of

A scholarship recipient is eligible to take courses, participate in programming (including after-school, extracurricular, supplemental, or summer school programs) or receive services from a public school (including charter schools and FLVS) if the student contracts for classes or services on a private-pay basis.

The parent or guardian can pay for services and request reimbursement, or the school district can choose to be paid directly as a provider.

There is no requirement for public schools or charter schools, or school districts, to contract for services with a scholarship participant or to set up an account for payment as a provider. Participation is optional for the public schools or districts.
